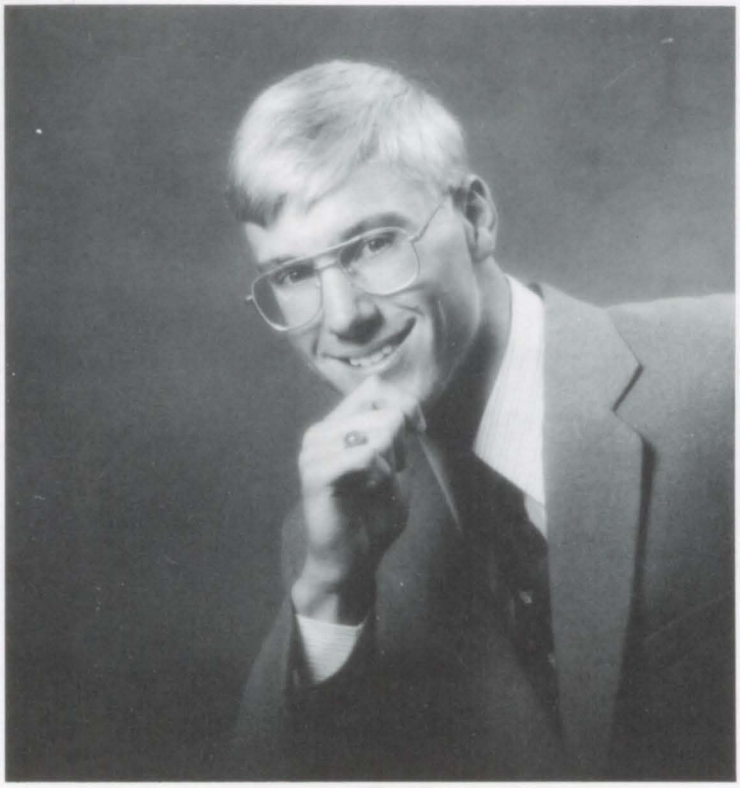
## EXPLANATION OF NAME DE-O-WAIN-STA

The year 1995 marks the 70th year of publication of Rome Free Academy's yearbook, the De-O-Wain-Sta. Previous to 1926 it had been called the Senior Annual. The name De-O-Wain-Sta comes from the Oneida Indian's words for "the carrying place," which means the place where boats were carried from one stream to another. The easiest route to the west for the English colonists was by way of the Hudson and Mohawk Rivers, Wood Creek, Oneida Lake, the Oswego River, and the Great Lakes. Along this route were portages or carrying places, the most important of which was at Rome between the Mohawk River and Wood Creek, its general location being what is now Dominick Street. Not until 1797 were Wood Creek and the Mohawk River connected by a canal for canoes and heavier boats, although it had been a very important place in transportation routes even before the Revolution. Until that time anyone traveling westward was obliged to carry his water craft across the land which was to mark the site of our city.

# VALEDICTORIAN



David A. Jokinen

David Jokinen is the valedictorian for the class of 1995. He is the son of Frank and Ruth Jokinen.

His list of scholastic, athletic, and other extracurricular activities is extensive. While at Rome Free Academy, he was a member of both the varsity and indoor track teams. He was a co-captain for the volleyball team. As well as being a member of the National Honor Society, he was a participant in the Regional Program for Excellence. Aside from all of his involvements, he found time to be a USVBA Volleyball team member and the President of the Wildlife Explorer Post Church Youth Group. He participated in the Empire State Games for both volleyball and cross country skiing. David was also a volunteer for the Special Olympics.

David plans to attend the Air Force Academy. He chose the military because "it fully develops one physically, mentally, and socially". Another reason that he decided to attend the Air Force Academy is the opportunity to travel around the world. He will be majoring in environmental engineering.

# SALUTATORIAN

Eric Nielsen is the salutatorian for the class of 1995. He is the son of Paul and Dotty Nielsen.

Eric has been very involved academically and athletically during his years at Rome Free Academy. Athletically, he was a member of the Cross-Country team and Indoor Track team, as well as the Track and Field team. Scholastically, not only was he a participant in the Regional Program for Excellence, he was also a cabinet member of the National Honor Society. He was a member of the Speech and Debate team and a participant in both Mathletics and the Rome Science Congress. Eric's distinguished honors include being a member of the Rome Lab Explorer Post and AFOSR HSAP at Rome Laboratory. He was also chosen to participate in the Sony Student Project Abroad.

After graduation Eric plans to attend the Massachusetts Institute of Technology, where he will major in Chemistry, Physics, or Mathematics. After college, he plans to be a research scientist, and later on, a teacher.

**Craig Zingerline** - Zing, Wisea**, Tuff, Muppet. X-Country, FCA, Indoor Track, Skiing, and Track. I plan to go to college, get married, make money, stay healthy, and most of all to be healthy.

I leave to all the underclassmen a clean, and drug-free R.F.A. To the cross country team I leave all of the great trips to Manhattan and all the great memories. To Francis, I leave the number one spot on the team. To brother man, I leave a stick of deodorant and the football game. Good luck in the future. To Kermie, I leave green beek, to the Indoor track team I leave bombing cars, throwing Tom and Brad in the snow and terrorizing the freedom mall. To the track team I leave eight 400's five days a week. To Brad I leave a bench, and "Hey Big Guy!" To E.P. the "Woody Bosack", keep it up. To the table I leave the pot, Brad's mother, and bugging the hell out of Phil. It's been fun, Peace!!

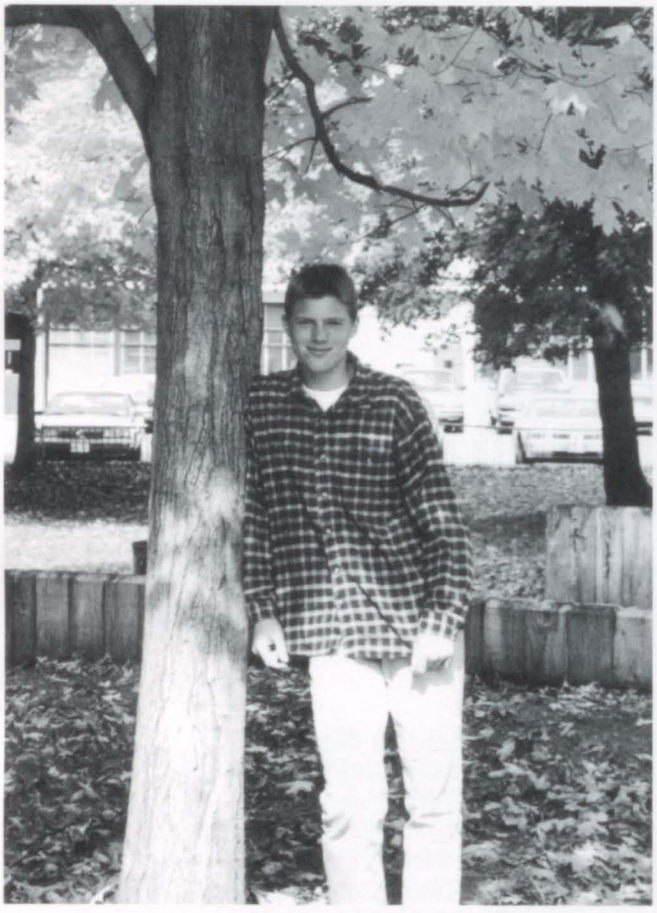
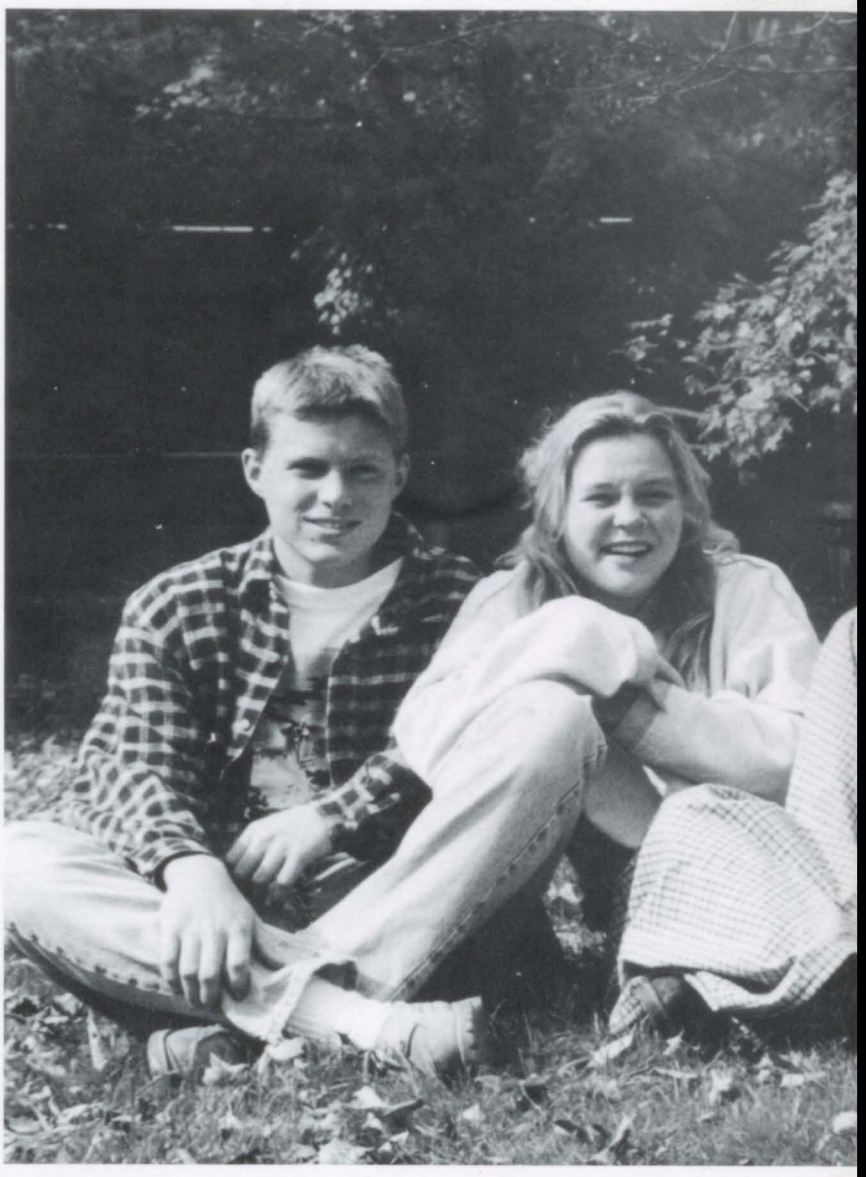
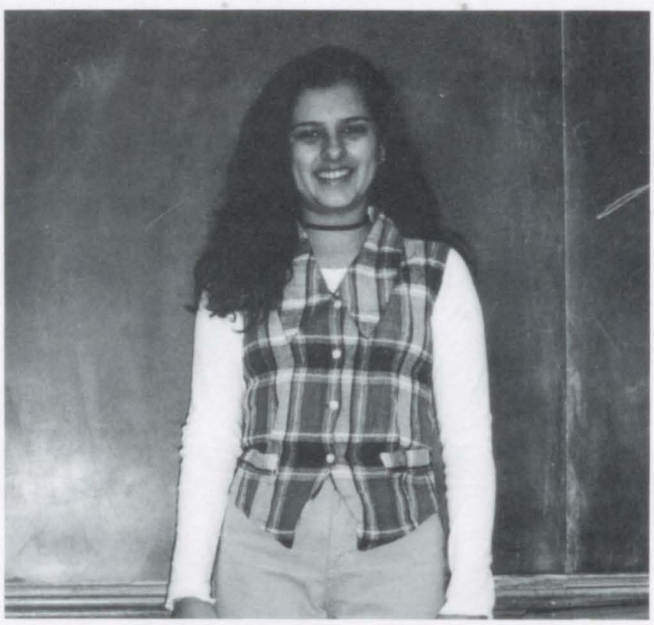
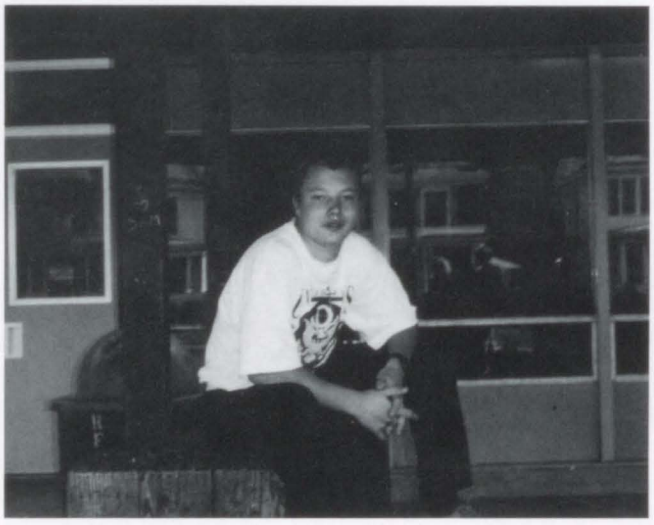
**JAN-PETER SCHMIDT-GERMANY.** He is in the eleventh grade here at R.F.A. He came to the United States to learn more about the American culture and to become more independent. Jan says that school here is very different from Germany. He says that he had a hard time adjusting to the United States, but everybody here is nice and understanding. He is a member of the Boys' Varsity Volleyball team.







**ANDREZZA MAZONI ZEITUNE-BRAZIL.** She is a senior at R.F.A. She says that everything here is different from her home country. She likes the people and teachers, and thinks they are very nice. She hasn't really had a hard time adjusting, as classes are easier here than in Brazil. In her spare time she does homework, plays guitar, meets new friends, and hangs out with her new international best friend, Anke.



**ANTON SOSIK-UKRAINE.** He is a senior at R.F.A. He came to the United States to live with an American family and to study in an American school. He says everything is different from the Ukraine, but the biggest difference is that the Americans have many more choices. School is harder in the Ukraine because they must take 16-20 different courses. In his spare time he goes to the mall, socializes with teens and plays sports.

**ANKE BUNSE-GERMANY.** She is a senior at R.F.A. She came to learn English and to meet new friends. Coming from the larger city of Berlin into the rather smaller city of Rome, she found quite a noticable difference in many things. For example, there are busses and a subway which runs twenty-four hours a day, whereas in Rome there is no subway and limited bussing hours. The school schedule here is the same throughout the whole week, whereas in Germany there are different courses taught each day of the week. In her spare time she meets new friends, spends time with her new international and national friends, and shops.

**JANA ECKHARDT-GERMANY.** She is a junior here at R.F.A. She came here to be in a new culture, to find new friends, to learn a new language, and to be independent. She's had a hard time adjusting because everything here, including the people and the language, is so different. When she goes out in Germany, it's to clubs at about eleven or twelve in the evening, and she doesn't get home until five in the morning. In her spare time here she plays a lot of sports and spends time with her new friends. She is a member of the Girls' Varsity Volleyball team.

# "ONCE UPON A MATTRESS"
# April 1994

"Once Upon A Mattress" was a musical based upon the fairy tale, "The Princess and the Pea." It is the story of a helpless prince, Prince Dauntless, whose life is dominated by his over-protective mother, Queen Aggravain. Before Prince Dauntless can be married, a princess must pass one of Queen Aggravain's impossible tests. A princess from a faraway land is then brought to the Kingdom, and Prince Dauntless falls in love. Princess Winnifred must pass the Queen's test, which is one of "sensitivity." The Queen places a single pea under twenty mattresses and only if the princess is sensitive enough and can't sleep, will she be able to marry. With the help of the townspeople, Princess Winnifred cannot fall asleep and Queen Aggravain must allow Prince Dauntless to marry her. The happy couple then live happily ever after.

SURVIVAL OF THE FITTEST.
We at Spargo Wire wish to offer our most heartfelt congratulations to the class of 1995. It takes courage and innovation to leap into the challenge of today's marketplace. For over a century, Spargo has remained at the head of a rapidly-changing industry, setting new standards for product quality, value, on-time delivery, and production efficiency. Our advice to the class of 1995 is simple: Commit yourself to excellence early on and you will build a reputation for leadership that is solid and unflagging. That's what has made Spargo the oldest wire company in America. And the fittest.

1973 Graduate with Top Honors in Art.

Your knowledge of true health care is incomplete without knowing the healing arts concept of chiropractic and its alternative therapies.

What better way is there to experience the natural healing benefits of chiropractic than with an examination of your neuro-muscular-skeletal systems, and treatment for any imbalances? Please challenge your sense of reality in this world by investigating new concepts of healing with your own body, mind and spirit-rather than relying on blind faith in our present system of health care.

Chiropractically yours.

Why Do So Many Seniors Come To Us For Their Portraits?

# To Look Good!

It's no accident our senior photography looks "different" than most of the pictures you see in your yearbook. That's how we planned it - **and here's how we do it:**

**❖ More Poses! ❖ More Variety!**
**❖ Exciting, Original Ideas!**
**❖ Plenty of Time During Your Sitting To Relax & Look Your Best!**

Don't settle for standard, boring, mug-shot portraits! We work hard to help you look great! Call today for information, and to schedule your appointment.

**You deserve to look your best - and we deliver!**

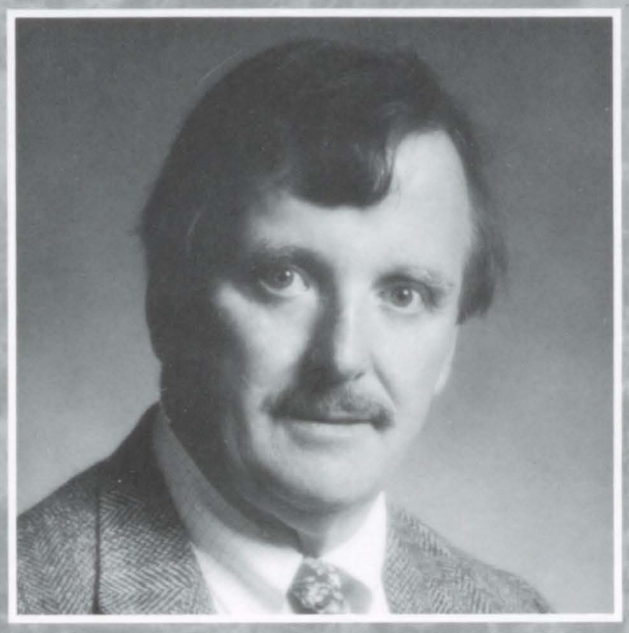
# IN MEMORY OF



**James R. Kirkland**
**1939-1994**

A photograph cannot fully illustrate the character of a leader.

A eulogy cannot totally capture the courage of a hero.

A lecture cannot blend the knowledge of a scholar and the wisdom of a teacher.

A broad smile cannot adequately express the full pride of a husband and a father.

A sonnet cannot always reveal the greatness of a heart.

A card cannot truly convey the message of unfailing love.

A single prayer cannot encompass the bounds of magnificent faith.

A premature death cannot kill the spirit of James R. Kirkland.

May all of us - students and staff - recognize your contribution to our lives. Your life and death have touched us all.

Kathleen Howlett

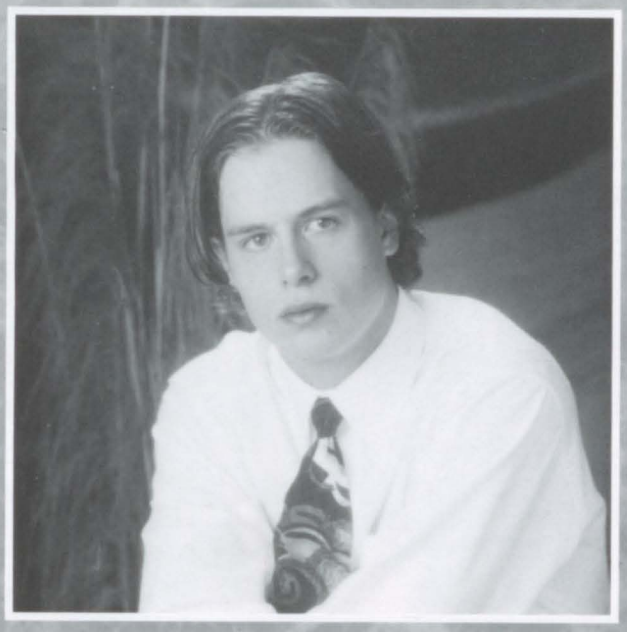
# IN MEMORY OF



**Jonathan C. Roe**
**1976-1995**

Feelings so strong,
They form a bond
But miles apart
Doesn't mean you're gone
The distance is sad
But the love is near
Held deep in our hearts
With nothing to fear.
It's hard to describe
How we feel inside.
But our thoughts of you are flowing
Like an ongoing tide.
We miss you dearly,
We miss you much,
But with your warm loving
memories,
You've touched all of us

-Taralyn Colon

Why did you have to leave us?
Why did you have to go?
All of us will always wonder
But we will never know.

The pain we will forever feel
The hurt we will always grieve
We will never understand
The reason you had to leave.

Of course it is hard to move on
And as time goes on we'll find
That as we move from day to day
You're still in our hearts and minds.

And as we wonder and ask ourselves
Why this had to happen
We all want you to know
You may be gone, but not forgotten
